INVENTOR PRIOR ART INFORMATION DISCLOSURE

INSTRUCTIONS TO CLIENT: Use this form to disclose prior art and other information to us.

(1) The Patent Office requires that inventors (and their employers) disclose to the U.S. Patent Office any prior art which is relevant, or reasonably close, to the invention, and which is known before the patent, if any, is issued. Failure to disclose may result in denial of the application or invalidation of a patent which may later issue. The rule does not impose a duty to search out or discover prior art. Prior art, for the purposes of completing this form, is any printed publication or other document which became available or accessible to members of the public before the filing of the patent application.

(2) Any public disclosure of the invention or commercial activities relating to the invention must be brought to the attention of the Patent Office. Describe any such public disclosure or commercial activities on a separate page.
